

The 25th Annual NVS Spring Gala: “The Show Must Go On”

Sunday, May 19, 2024, from 12-4pm

This year’s Gala will be held at **Salty’s on Alki**, with live entertainment, raffle prizes and live auction items. It’s been a challenging few years for us, to include the loss of our beloved Neurology Vocational Services Unit (NVSU) founder and Director, Dr. Robert T. Fraser (pictured above, with daughter Simone Bruyere-Fraser). We continue to provide comprehensive vocational services at Harborview Medical Center. We hold this Gala each year to raise funds to support our clients as they transition back to work following an injury or illness. **We would greatly appreciate a donation of an auction item.**

NVSU has been providing Northwest employers with quality job applicants since 1976. We help people with disabilities, such as **autism, head injuries, epilepsy, ADHD, MS, and stroke**. We remove barriers to employment to help people recover and return to work. We're helping more people each year and the more money we raise, the better we can serve our clients to lead satisfying and productive lives. Our employers benefit as well.

NVS is the non-profit 501(c)(3) organization for NVSU. NVS is the support team that helps NVSU find jobs for people with neurological conditions. The funds raised at our annual Gala support our clients’ needs for things such as: onsite one-on-one job coaching, virtual job website fees, licensing and certification, food handler permits, assistive technology that they need to be successful in a job. Our job coaches provide an invaluable service to our clients whether they work on site or remotely.

Please consider this worthwhile giving option!
All of the funds we raise go directly to providing services to our NVSU clients!
